

TEMPLATE

WS 2015 Project 1: Web Size

Keep anonymous

Table 1: Toy table. Use this as a template for making your own tables.

Non-English or Math	Frequency	Comments
\emptyset	1 in 1,000	For Swedish names
π	1 in 5	Common in math
\$	4 in 5	Used in business
Ψ_1^2	1 in 40,000	Unexplained usage

1. INTRODUCTION

Write the introduction to the project here, in your own words. Note that the study of Lawrence and Giles is outdated; today, several studies have been published on estimating the size of the indexable Web. Give an overview of *at least two* studies in this area that have been published from 2000 onwards. You can find these studies by searching Google Scholar or the ACM digital library (<http://dl.acm.org>).

2. METHODOLOGY

Describe the methodology of this study in your own words. You can use the same notation as [?] for the formulas, but the descriptions must be in your own words.

3. FINDINGS

Report your findings in tables and figures (equivalent to Tables 1-2 and Figures 1-3 in [?]). You must also discuss these tables and figures.

4. CONCLUSIONS

Describe your conclusions.

Figure 1: Toy figure. Use this as a template for making your own figures.
